PB00	As an election official, I want the system to run an Instant Runoff (IR) election type Because I was told to do so by the Secretary of State.			Implement tie resolution bug fix	Scott Deyo
			Update unit/system tests		Scott Deyo
				Update documentation	Scott Deyo
	Acceptance Criteria: - Able to input a .csv file with 'IR' on the first line. - Expected winner is announced after ballots are processed, according to the IR algorithm. - In the event of a tie, the tie will be resolved with a coin toss.				
	Definition of Done: - Properly formatted file is passed into system without errors. - Unit testing shows expected outcome of open party listing vote. - Unit testing shows expected outcome of coin toss. - Doxygen documentation updated.				
	Effort: Small				
PB01	As an election official, I want the system to run an Open Party Listing (OPL) election type Because I was told to do so by the Secretary of State.			Implement redistribute seats bug fix	Luisa Jimenez
				Update unit/system tests	Luisa Jimenez
				Update documentation	Luisa Jimenez
	Acceptance Criteria: - Able to input a .csv file with 'OPL' on the first line. - Seats are allocated as expected after ballots are processed, according to rules of OPL seat allocation. - In the event of ties, any tie will be resolved with a coin toss.				
	Definition of Done: - Properly formatted file is passed into system without errors. - Unit testing shows expected outcome of open party listing vote. - Unit testing shows expected outcome of coin toss. - Doxygen documentation updated.				
	Effort: Small				
PB04	As an election official, I want to bring in multiple files instead of a single file So that I can bring in different files from different balloting locations			Implement bringing in multiple files	King Yiu Suen
				Write unit tests	King Yiu Suen
				Update documentation	King Yiu Suen
	Acceptance Criteria: - The result announcement, audit file, media report and short report of the elections are produced.				
	Definition of Done: - Unit testing shows the expected outcome of each election. - Doxygen documentation updated.				
	Effort: Small				
PB06	As an election official, I want to remove invalid ballots from an election using Instant Runoff voting, So that we follow the standards set by state election officials.			Implement invalid ballot removal in IR voting	Brian Lu
				Write unit tests	Brian Lu
				Update documentation	Brian Lu
	Acceptance Criteria: - Remove invalid ballots from an IR election. - Ballots in an IR election must have at least half of the candidates ranked to be valid.				
	Definition of Done: - Changes to code are covered by unit tests. - Unit tests passed. - Doxygen documentation updated.				
	Effort: Medium				
PB02	As an election official, I want the system to run a Popularity Only (PO) election type Because I was told to do so by the Secretary of State.			Implement PO ballot file processing	Brian Lu
				Write unit tests	Brian Lu
				Update documentation	Brian Lu
	Acceptance Criteria: - Able to input a .csv file with 'PO' on the first line.				
	Definition of Done: - Properly formatted file is passed into system without errors - Doxygen documentation updated.				
	Effort: Medium
