PB00	As an election official, I want the system to run an Instant Runoff (IR) election type Because I was told to do so by the Secretary of State. Acceptance Criteria: - Able to input a .csv file with 'IR' on the first line. - Expected winner is announced after ballots are processed, according to the IR algorithm. - In the event of a tie, the tie will be resolved with a coin toss. Definition of Done: - Properly formatted file is passed into system without errors. - Unit testing shows expected outcome of open party listing vote. - Unit testing shows expected outcome of coin toss. - Doxygen documentation updated. Effort: Small		System Test Documentation	Tie Resolution Bug Fix	Scott Deyo Scott Deyo Scott Deyo
PB01	As an election official, I want the system to run an Open Party Listing (OPL) election type Because I was told to do so by the Secretary of State. Acceptance Criteria: - Able to input a .csv file with 'OPL' on the first line. - Seats are allocated as expected after ballots are processed, according to rules of OPL seat allocation. - In the event of ties, any tie will be resolved with a coin toss. Definition of Done: - Properly formatted file is passed into system without errors. - Unit testing shows expected outcome of open party listing vote. - Unit testing shows expected outcome of coin toss. - Doxygen documentation updated. Effort: Small	Unit test Documentation	Redistribute seats bug		Luisa Jimenez Luisa Jimenez Luisa Jimenez
PB04	As an election official, I want to bring in multiple files instead of a single file So that I can bring in different files from different balloting locations Acceptance Criteria: - The result announcement, audit file, media report and short report of the elections are produced. Definition of Done: - Unit testing shows the expected outcome of each election. - Doxygen documentation updated. Effort: Small			Implementation Unit tests Documentation	King Yiu Suen King Yiu Suen King Yiu Suen
PB06	As an election official, I want to remove invalid ballots from an election using Instant Runoff voting, So that we follow the standards set by state election officials. Acceptance Criteria: - Remove invalid ballots from an IR election. - Ballots in an IR election must have at least half of the candidates ranked to be valid. Definition of Done: - Changes to code are covered by unit tests. - Unit tests passed. - Doxygen documentation updated. Effort: Medium			Implementation Unit tests Documentation	Brian Lu Brian Lu Brian Lu
PB02	As an election official, I want the system to run a Popularity Only (PO) election type Because I was told to do so by the Secretary of State. Acceptance Criteria: - Able to input a .csv file with 'PO' on the first line. Definition of Done: - Properly formatted file is passed into system without errors - Doxygen documentation updated. Effort: Medium			Implementation Unit tests Documentation	Brian Lu Brian Lu Brian Lu
